

2 ARE ACCUSED IN HIT-AND-RUN CRASH MARCH 27

The third of three hit-and-run accidents which occurred during the week of March 21 was "cleaned up" today by state police of the Gettysburg sub-station, with the announcement this morning that charges will be filed later today with a county justice against John Robert Creager, 25, of Fairfield R. 1, and his brother, Mark Creager, Charman. The other two hit-run cases have already been solved and prosecutions completed.

John Robert Creager will be charged, police said, with leaving the scene of an accident, and with driving a car without an operator's license. His brother will be charged with failing to obtain a Pennsylvania certificate of title to the car which police say was involved in an accident with the automobile of Luther Sachs, Locust avenue, on March 27.

Hub Cap Is Clue
A car driven by Sachs was side-swiped a quarter of a mile east of Blue Ridge Summit at 10 p. m., March 27. The other car failed to stop. In the subsequent investigation by state police, the hub cap of a Plymouth automobile was found at the scene of the accident. The Sachs car was a Dodge.

Continuing their investigation, state police checked on several Plymouth cars which had been damaged, until they found, they said today, a 1935 car of this make in a Sabillasville garage which had been towed there from a lane about a quarter of a mile from the scene of the Sachs accident.

Further investigation brought out the fact that this was the car that hit the Sachs automobile, police said and that John Robert Creager admitted being the driver. State police said he told them that he "was going to stop, but realized that he had no operator's license."

Creager was accompanied by his brother, owner of the car, police said, who had no certificate of title for the vehicle which he had recently purchased.

Serial Numbers Trap Suspect In Money Theft In New Oxford

The jotting down of the serial numbers of several bills in a desk drawer at the home of Earl Miller, New Oxford R. 1, after Miller had previously missed various sums from his "egg money" led to the arrest in York Thursday afternoon of John H. Becker, 49, of York, for the theft of this money.

State police of the Gettysburg sub-station, who had been conducting the investigation of the thefts, said Becker would probably be charged later today with burglary before a local justice of the peace. He was brought here from York and lodged in the Adams county jail.

Miller, a bachelor, employed at the Hanover Box company, raised chickens and sold eggs, police said, putting money he received in the desk at his home. Several times when he counted the money he found part of it was missing. He complained to the state police.

Then he copied the numbers of several of the bills remaining. When he returned home Thursday afternoon he found \$20 missing, according to the state police.

Suspicion was directed at Becker, a cousin of Miller's, who had been seen in the vicinity of Miller's home. It was learned that he boarded a bus for York at New Oxford, and York police were asked to pick him up.

When they did, York police found two of the bills for which Miller had the numbers, and state police found another when Becker was brought here. He refused, however, to admit any connection with the thefts. Police said the total amount of money taken from Miller's home had not been determined.

ACQUIT MAN WHEN COURT IS DIVIDED

J. Russell Rohrbough, Gettysburg R. 2, got the benefit of the doubt this morning in Adams county court and thus was found not guilty of speeding when the judges were divided in their opinion on the case. The charge had been brought by state police.

The case was one of a number before the court today in a session from 9:30 a. m. to 12:25 p. m. to clear a docket of speeding, desertion and non-support cases and other business. It then adjourned until Monday morning at 9:30 o'clock when the April petit jury will begin consideration of the five criminal cases for trial.

April's grand jury completed its work Thursday afternoon by visiting the county home and then writing its recommendations. Signed by Foreman Fred H. Lewis, the grand jury report stated: "We commend the county commissioners, and steward of the county home on the work that is being done in repairing the buildings and we recommend that the repairs include replacing the plaster wherever needed in the men's dormitory and the asylum, and paint the interiors, further that the building inmate who periodically loses her reason be sent to an insane asylum; further that the torn flag be replaced."

Other Hearings

In court this morning James H. Wiser, Sr., 233 North Washington street, was directed to pay \$20 a week for the support of his wife and ordered to post \$500 on his own recognizance to comply with the order following a hearing on a desertion and non-support charge.

D. A. Hoopert, York Springs, facing charges of failing to stop at the signal of an officer and reckless driving was found not guilty by the Adams county court following a hearing on the case.

Gettysburg Borough Officer Kenneth Tawney told the court he brought the charges after Hoopert passed several cars on a borough street and after apparently slowing down at Tawney's flashlight signal, drove away before Tawney could reach the vehicle.

Hoopert's story was that he had passed one car, that he was in second gear at the time he passed the vehicle ahead of him, that he saw no flashlights, that he saw no policeman and that the only person he did see was a hitchhiker. His mother, Mrs. Florence Hoopert, agreed with all the things said by her son and added that she had called attention to the hitchhiker.

Gets Support Order

Norman Cullison, East Railroad street was directed to pay \$27 a week for the support of his wife and child and enter into a bond for \$500 on his own recognizance after a brief hearing in a desertion and non-support case.

H. Wayne Cluck, charged with speeding, was found guilty by the court and ordered to pay \$10, for the use of Straban township, and the costs of the case following a hearing. Cpl. Jack Bartlett and Pfc. George Evanko of the local state police testified they followed Cluck's car for a number of miles along the Lincoln highway east of here stating they did not catch up to Cluck until he turned off the road, despite traveling at a speed of 80 to 85 miles per hour. Cluck argued that another car looking very much like his and having the same color as his car passed him while he was near the Lincoln Logs, and that he presumed the police had been chasing that car. He himself, he said, was traveling at a moderate rate of speed.

Kenneth E. Woodward, East Middle street, was found guilty by the court of reckless driving following a hearing in which Woodward admitted passing a car near the top of Baltimore hill but argued that the car was a Crosley and small and therefore could be passed safely. He had been charged by Borough Officer Kenneth Tawney, who testified Woodward was fined \$10 and ordered to pay the costs.

AT OFFICERS' CONFAB

The Adams county commissioners' conference on assessment problems held at the court house in Harrisburg and sponsored by the Pennsylvania State Association of County Commissioners. The session was regional with representatives from eight counties attending. Among the subjects discussed were "Legislation as it affects Assessment," "The State Tax Equalization Board," and "How to Establish Assessment Standards."

CLASSIFY TWO DAIRY HERDS

The purebred Holstein-Friesian herds of Walter Hay of Gettysburg R. 3, and Edgar Weaver, Gettysburg R. 4, were being classified for breed type today by William Rider, fieldman for the Pennsylvania Holstein association, and a representative of the National Holstein-Friesian Association at Brattleboro, Vt.

Herd classification is an official appraisal of type of Holstein-Friesian cattle and is based on the official scale of points of the breed. Cows that have freshened and bulls three years old and over are eligible to be classified.

Herd classification work is conducted by an inspector who is appointed by the Holstein-Friesian Association of America. This service is available to any breeder of Holstein cattle regardless of the size of the herd or its location.

The purpose is to improve the type and quality of the breed. When a breeder makes application to have his herd classified he agrees to register no male calves from the cows which classify "Fair," and animals which classify "Poor" must have their registration certificates cancelled and must thereafter be considered a grade. In this way undesirable blood is eliminated from the breed.

ACQUIT MAN

today, to fight for principle rather than the \$10 fine involved," apparently lost both the principle and the fine when the court found him guilty of speeding following a hearing in which Lewis spoke for 20 minutes without interruption to explain that he could not have been speeding. He was directed to pay \$10 to Huntington township and the costs.

The support order of Claude Wagner, Hanover R. 3, was revoked when it was learned that his daughter was supporting her mother from whom Wagner was divorced in February. The court pointed out that support given to the daughter could not be used to support the wife from whom Wagner was divorced, and then ordered the support order revoked as of February 14, when the divorce was handed down.

Labels in divorce were filed by Attorney J. Francis Yake, Jr., in open court in the following cases: Helen M. Kint, Aspers, versus Charles J. Kint, York, and Doris L. (Colehouse) Stevens, Midway, versus Frederick A. Stevens, Hanover. In both cases cruel and barbarous treatment is alleged.

Howard L. Weikert, Jr., was directed to pay \$15 for the support of three children, an increase of \$5 a week, because his wife has given birth to their third child. He was also directed to repay \$13 of the lying in expenses to his wife for the third youngster when it appeared that "extra money" he had given his wife in addition to the previous support order paid for most of the hospital and doctor bills.

The desertion and non-support case brought against Junior E. Jumper, Gardners R. 2, by his wife was dismissed when the couple appeared to state they planned to go back to living together. Jumper was given two weeks to pay the costs.

A petition for parole of France Wirth, Flora Dale, serving a term on a charge of aggravated assault and battery was presented to the court by Attorney John B. Keith. No action was taken immediately. Prothonotary Arthur H. Shields said that two actions in trespass scheduled for trial at the current term of court have been reported settled. In the one case Ellen R. Sell, McKnightstown, was seeking damages from E. W. M. Hartman, Gettysburg, and N. E. Shultz, Cashtown, as a result of an accident in McKnightstown in which Mrs. Sell was struck by the Hartman car. The other case was brought by Ernest W. and Olga K. Brown, Washington, D. C., against the C. H. Musselman company of Biglerville. Mrs. Brown sought damages claiming she fell and injured herself at the Inwood, W. Va., plant of the company last fall.

GHS TO DEFEND TRACK TITLE AT SHIPPENSBURG

Gettysburg high school's track team, defending champion of the Class A events of the Shippensburg State Teachers' college meet, is among the 10 Class A entries for the meet this year which will be held Saturday.

Other entries include Hanover, Carson Long institute, Carlisle, Chambersburg, Harrisburg Catholic, Columbia, Hollidaysburg, Red Lion, and West York.

North York high is the Class B defending champion and heads a list of 14 entries including Biglerville, Bellwood - Antis, Camp Hill, Dallastown, Hummelstown, Lemoyne, McConnellsburg, Middletown, Scotland, Susquehanna Township, Swatara, Washington Township and Adams Township.

Among holders of records for the meet are three Adams countians. In Class A, Bill Everhart, Gettysburg, set the 100-yard dash mark of 10.2 seconds in 1939 which was tied by White, Swatara, in 1941. Wayne Bucher, Gettysburg, set the 220-yard event record in 1939 at 23 seconds and this was tied in 1941 by Igo, Tyrone.

In Class B, Eddie Utz, Biglerville, now a member of the Shippensburg State Teachers' college varsity, ran the century in 10.4 seconds in 1946 to tie the record previously established by Snyder, South Woodbury, in 1939, and tied by Gebensleben, Lemoyne, in 1941.

Trials on Saturday will start at 10 a. m., with the finals listed for 2 p. m.

Nominate 67 Cars For Speedway May 30

Indianapolis, April 16 (AP)—Sixty-seven cars, the biggest entry list since 1931, had been nominated today for the 32nd annual 500 mile race at the Indianapolis motor speedway May 31.

Speedway President Wilbur Shaw said he expected several other entries postmarked before the deadline at midnight last night and the final total might equal the all-time high of 72 in 1931.

Entries include: Ray Brady, Norristown, Pa., unnamed six cylinder, driver Mel Hanson; owned Ted Nyquist, Jr., Reading, Pa., four-cylinder Nyquist Special, driver unnamed; owner and driver Jim Brubaker, DuBois, Pa., eight-cylinder Masterati Special.

New York State residents once presented a 1,400-pound cheese to President Jackson.

Transfer Contest To McSherrystown

The Gettysburg-Delone Catholic high school baseball game, scheduled to be played on the local field this afternoon, has been postponed until Saturday when it will be played at McSherrystown at 2:30 o'clock.

The poor condition of the Maroon field, brought about as a result of heavy rains during the past week, resulted in transferring the game to McSherrystown.

Derby Prospect Is Friday Winner

Camden, N. J., April 16 (AP)—The Kentucky derby stock of J. M. Roebeling's Macbeth has taken a decided boost but whether he goes the run for the roses at Churchill Downs May 1 likely will depend on his showing in a longer race.

The chestnut colt came from far off the pace in the home stretch to win the six furlongs of the Camden handicap at Garden State Park's opening yesterday.

The margin of victory over the seven-year old King Dorsett was only the slimmest of noses but the manner in which Macbeth achieved the triumph impressed the crowd of 17,348. He had only one horse beaten coming out of the backstretch but under Jimmy Stout's fine ride got up in time to take down the purse of \$12,675.

"He showed me a good race," said Trainer Andy Shuttler after the race, "but before I decide whether to ship him to the derby I'll probably give another test in a longer race."

There are only two sets of quintuplets alive today—the Dionne sisters born in Canada in 1934, and the Diligent quintuplets born in 1943 in Argentina.

COLLEGE TRACK TEAM IN 3-WAY MEET SATURDAY

Coach Leroy Bloomingdale's Gettysburg college trackmen will engage in their initial meet of the season Saturday afternoon when Lehigh and Muhlenberg will be met in a triangular meet at Bethlehem.

A partial list of entries for Saturday's events were announced today by Coach Bloomingdale. Due to training conditions entries are somewhat uncertain.

They include the following: 100-yard dash: Hummel Payer, George Gorman; 220-yard dash: Payer, Dick Cromer; 880-yard run: Barney Kettler, George Hamm; 440-yard run: Hamm, Payer, Dick Altomose; mile run: Kettler; two-mile run: Jimmy Long; 120-yard high hurdles: John Yost, Charles Rambo; 220-yard low hurdles: Yost.

Cadillac

ANCESTRY

The new Cadillacs you see today on the streets and highways of America have been more than forty-five years in the making. Back of them is a long line of fine, pioneering ancestors—every one of which has made a basic contribution to Cadillac's development. Without this long background of experience, today's Cadillac could not be built—for character in a motor car is like that in a human being—it is a long time in the making.

If you are waiting for a new Cadillac—please be assured that every effort is being made to further production. Demand is so great, however, that some delay in delivery is still inevitable. But hold to your purpose! There is no substitute for a Cadillac.

Today's Talk

MIND ROVING
In my reading, recently, I came across a very interesting comment by Norman Douglas, upon the mind of Charles M. Doughty, the author of "Arabia Deserta," who said: "Doughty is rich in character, self-consistent, never otherwise but himself. Press him to the last drop, it has the same taste as the first."

This quotation was taken to illustrate an argument by H. M. Tomlinson, who contended that in the writing of a book of travel the reader should be led into the mind of the writer, as well as into the story of the country described, and this is what Douglas contended that Doughty did.

I used to sit and listen for hours to the talk of the late Robert H. (Bob) Davis, as he talked of his travels all over this earth—and he travelled everywhere. But as I listened I always felt that I was also travelling the mind of Davis—taking an "interior voyage," every word bristling with color and personality. A gift indeed for either conversationalist or writer—and Bob had it all—to the last drop!

It is not what a talker or writer tells you about a subject that is the most fascinating, but what he reveals of himself in what he has to say. Boswell's Life of Dr. Johnson, for example, is quite as truly an autobiography of Boswell himself. A double life story.

By listening to another person, what he actually says may be irrelevant and of little consequence, so far as what information he may bring forth, but what he reveals of his own mind may be quite significant. That is another story—the unconscious story of the man himself, taking you on a journey through his own mind. I felt this as I read that absorbing book by R. B. Cunningham-Graham which he called "Mogreb-el-Ekksa." One of the great travel books, but unfortunately rarely read, and long out of print, for the same reason! George Bernard Shaw, however, paid it high tribute and borrowed from it.

One of the most fascinating of all the books of W. H. Hudson is that one called "A Traveller in Little Things." He had an observant and speculative mind. You are always conscious, in the reading of this, as well as in most of his other books, that you are actually travelling the mind of Hudson itself.

Tomorrow Mr. Adams will talk on the subject: "A Shut-in League."

TARPON
Experience has taught me that
The tarpon is an acrobat,
Or, though I do the best I can,
I'm not a skillful fisherman.

A Bishop good would testify
At landing bass not bad am I.
I've managed, when I've had them
Successfully with perch and pike.

The tarpon is a different breed.
From baited hooks he likes to feed.
Then leap in air, and twist about,
And throw the barb and leader out.

My tarpon record this repeats:
Four challenges and four defeats;
But still it was a thrill to see
A tarpon thumb his nose at me.

Sunday School Lesson

THE RETURN FROM EXILE
By Rev. Howard R. Gold, D.D.
Margaret C. Gold
Ezra 1:1-4; 4:23-24; Hagai 1:3-8, 13-14

Memory selection: No man, having put his hand to the plow, and looking back, is fit for the kingdom of God. Luke 9:62.

Encouraged by the messages of Ezekiel the exiles waited expectantly for the time when they could return to Judea. Their chief concern was to rebuild the Temple at Jerusalem and resume divine worship there. Finally, Persia overthrew Babylon. It was the policy of the Persian kings to re-patriate all the peoples who had been deported by the Assyrian and Babylonian kings.

Cyrus, first Persian king to come into power, believed in religious freedom and the Jews were quick to create a favorable situation. No doubt the new king also saw an opportunity both to please the Jews by allowing them to return and to establish a friendly state in Judea, a buffer between him and Egypt.

So Cyrus issued a proclamation permitting all Hebrews who wished to return to their homeland. Ezra, who is credited with writing a part of the Ezra-Nehemiah narrative, sees in this act the hand of God and fulfillment of Jeremiah's prophecy. "Jehovah stirred up the spirit of Cyrus, king of Persia."

The Restoration
The restoration of the Jews took place under the Persian Empire and is divided into two distinct periods, although the whole period covered about 100 years. The Book of Ezra gives the account of both periods of post-exile history. The first part of Ezra is the story of the return of the first contingent of Jews under Joshua the Priest and Zerubbabel, restoration of worship and erection of the Temple against Samaritan opposition. The second period is an account of the second group led by Ezra and Nehemiah and the reforms accomplished by them. This particular lesson belongs to the first period.

Three Returns
The return of the Jews to Judea was accomplished over a long period but the three Persian kings—Cyrus, Darius, and Artaxerxes were all friendly to the undertaking. There were actually three separate returns. The first group of ecstatic Jewish exiles numbered nearly 50,000 and they left Babylon in 536 B.C. taking with them many beasts, gold, silver, goods and about 5,400 vessels which Nebuchadnezzar had carried away from the Temple.

The second group led by Ezra almost 80 years later was much smaller, only about 1,754 men. The last group is unnumbered but was led by Nehemiah the governor who was ordered to rebuild and fortify Jerusalem at government expense. Judah was still subject to Persia but the religious community was entirely free. The Jews returned for purely religious reasons, not patriotic ones.

A Choice
The exiles had not been commanded to return. Cyrus gave them men's and women's work meeting with address by the Rev. A. F. Bollinger, returned missionary from India, at 7:45 p. m.

a choice, either to return and help rebuild the Temple or give of their goods and money toward the reconstruction. Most of the people had been born and bred in Babylon, a great many had prospered, and the journey back looked long and wearisome compared to the comforts of metropolitan Babylon. So some preferred to remain there and give of their means. But those of faith and vision saw that this return was ordained by God. It was their appointed task to return and rebuild Jerusalem as the center of Israel's religion. The common people needed the Temple as a symbol of the presence of Jehovah as the Israelites on their journey to Canaan needed the Ark of the Covenant. The first and largest group were accompanied by bands of singers who lightened the weary pilgrims with psalms of rejoicing.

Difficulties After Return
As soon as the people reached Jerusalem they rebuilt the altar and offered sacrifice which was in the seventh month of the same year, 336 B.C. Of course Nebuchadnezzar and his armies had sacked and burned Jerusalem so they found the city in ruins. Only the poorest of the land had been left and they were uneducated, without leaders, and surrounded by heathen influences. Many desert nomads had come in and occupied the fields and buildings.

These courageous people faced great problems of political, social and religious adjustment. However, they consistently refused to compromise their religion and decided to remain aloof from their pagan neighbors. It was the only safe way to preserve their religion, to keep it pure and undefiled. The Samaritans were their chief adversaries and due to their continued opposition, the Jews were forced to cease building the new Temple. For nearly sixteen years practically all building operations were suspended. They did construct homes for themselves and plant the fields.

Hagai Stirs Them
In the second year of Darius' reign, the prophet Hagai rebuked the people for neglecting to complete God's House. He said they had built fine houses for themselves, planted much and reaped very little. He urged them to "Consider their ways." God stirred the hearts of Joshua, Zerubbabel and the remnant of people till, inspired with new hope, they resumed work within three weeks and continued until the Temple was finished. Hagai had a limited task to perform but the Lord had promised him help when he said, "I am with you."

WARN BOGOTA PATTERN CAN HAPPEN HERE

By DOUGLAS B. CORNELL

Washington, April 16 (AP)—An open warning and a guarded hint that Colombia's blood-spattered revolt pattern may be used in the United States spurred a Congressional committee today to dig deeper for facts.

For one thing, the lawmakers want a complete explanation of why the State department went ahead with the Pan American conference at Bo-

gota despite definite word that the Communists were plotting trouble there.

The department itself said Secretary Marshall scornfully rejected any notion that "a handful of Communists" could intimidate the American republics.

But Rep. Clarence J. Brown (R.-Ohio) saw the situation in a different light. "Why," he said, "did they (department officials) go blindly into this conference knowing there might be trouble? Why did they permit themselves and the country to be put in a ticklish position?"

Had Many Warnings
Brown said he wants the answers to those questions and will try to get them at hearings to be set later. He is the chairman of a House

committee set up to look into the background of the destructive Bogota uprising—particularly to learn whether this country's central intelligence agency (CIA) had warned Marshall there might be trouble in the Colombian capital.

Yesterday's hearing brought evidence of a number of such warnings. Afterwards the State department volunteered that it had been fully aware of the situation itself and that Marshall had commented "sally" the American republics were not going to be intimidated by Communists or anybody else. But the thing that stood out in sharpest focus was the double admonition in Congress that trouble may be ahead in this country.

A Little Ahead of Us
First Rear Adm. R. H. Hillenkoetter, head of the CIA, told Brown's committee that "conditions in Colombia are similar to those in the United States except that they are

advanced a couple of years."

Hillenkoetter said Jorge Gaitan, the Colombian Liberal leader whose assassination touched off the revolution, was a figure "like Henry Wallace in our country"—a man who played along "with the extreme left and the Communists."

Wallace was not immediately available for comment. But C. B. Baldwin, his third party campaign manager, called Hillenkoetter's assertion "contemptible."

"When an assistant to Secretary Marshall, even though he is another militarist, joins the chorus of hate," Baldwin said in a statement, "it demonstrates that the State department is following the Truman-Forester-Parnell Thomas line of smearing all opposition."

The second warning in Congress came from one of its own members. Rep. Donald L. Jackson (R.-Calif.), an observer for Congress who flew back from the Bogota conference to report to his colleagues, declared:

"The uprising in Bogota was not something that just happened. It represents additional stitches in the cloth of violence. It can and will happen in New York, Chicago and San Francisco . . . unless the march of Communism is halted. . . . The Red tide has touched the shores of the Western hemisphere."

Jackson said Congress should pass a law to curb Communism.

The Richmond-Williamsburg area of Virginia was a well-settled and prosperous country when southwest Virginia was still a virgin mountain fastness.

WEST EUROPE NATIONS SIGN UNION CHARTER

By JOSEPH E. DYNAN

Paris, April 16 (AP) — Western Europe formally bound itself today to stand united in order to avoid falling into deeper poverty and war.

It did so in a 3,000-word charter signed in Paris. The charter created

a "European organization of economic cooperation."

This organization is designed to assure efficient use of the \$5,300,000,000 the United States has pledged in the European recovery program (ERP).

16 Nations And West Germany The charter was signed at a meeting of representatives of the 16 Marshall-plan nations and occupied western Germany, among them many foreign ministers. The meeting was called to order by British Foreign Secretary Ernest Bevin in the French foreign ministry's clock room.

The preamble says, "a strong and

prosperous European economy will contribute to the maintenance of peace."

The document names these contracting powers: Austria, Belgium, Britain, Denmark, France, Greece, Eire, Iceland, Italy, Luxembourg, Norway, the Netherlands, Portugal, Sweden, Switzerland, Turkey and the French, British and American zones of Germany.

What They Promise

They agree to try to get back on their economic feet as quickly as possible in order to be able eventually to dispense "with any foreign aid of an exceptional character."

They promise to "augment their production, develop and modernize their industrial and agricultural equipment, increase their exchanges, reduce progressively barriers to

mutual trade, encourage full employment of their manpower."

They recognize "the generous intention of the American people" in supplying the dollars with which they hope to meet their goals.

In article one, the nations "assign themselves as their immediate task the setting up and execution of a common recovery program." To this end they "hereby institute a European organization of economic cooperation."

Manpower Pledge

They pledge themselves to better use of "the resources at their disposal in their homelands and in their overseas territories." They will set up within the framework of the organization "programs of production and of the exchange of goods and services," the charter

GOOD NEWS FOR SICK PEOPLE

RHEUMATIC PAINS, ARTHRITIS, NEURITIS,
STOMACH AILMENTS, WEAK KIDNEYS,

and such complaints as Headaches, Nervousness, Acids, Toxins, Bloating, Lack of Vitality, Energy, Poor Appetite, Underweight, Dizzy Spells.

Drugless Health

IF YOU ARE a sufferer of these ailments, try BIO-MINERAL. You may be astounded at the results. You need not guess—you will see facts. BIO-MINERAL comes from the earth—Nature's Laboratory. Contains NO dope. NO alcohol. NO oil. ONLY Nature's minerals, the oldest, most reliable remedy for rheumatism, arthritis, kidney and stomach ailments.

BIO-MINERAL will enrich your blood, help to make you strong, full of pep, life and energy. Lack of minerals in the blood causes anemia, headaches, nervousness. Minerals generate mental brilliancy, give sparkling eyes, red cheeks, fight disease, build up health.

Wonder Minerals

RHEUMATISM, arthritis are dreadful diseases. Acid condition in the blood is often their cause. What could be the remedy? For thousands of years, minerals have been used to relieve the pain and suffering of these ills. People, on the advice of doctors, go to mineral springs to find cure, or relief. The late President Roosevelt used to go to Warm Springs in Georgia. He was helped or would not have gone there regularly twice a year.

YEAR after year, people rush to mineral springs and spas, to drink and bathe in their miraculous water. We have all heard of the wondrous springs of Lourdes, France, and famous Thonon in ancient Greece where, according to legend Hercules, the god of eternal strength and youth, drank its waters and bathed to be forever young.

Amazing Results

BIO-MINERAL contains minerals you get at the world's best springs. Watch your elimination from your bowels a day or two after using it. The waste, black as the color of your shoes, will start to break away, and you will SEE it. Also examine your urine. You may see impurities—poisonous waste—coming out of your kidneys, relieving you. And then realize the priceless value of BIO-MINERAL.

BIO-MINERAL is not a physic and does not interfere with the foods in the stomach. It cleans and purifies the intestines, thoroughly relieving gas, toxins, acids, and bloating. After these poisons are out of the system and the kidneys purified, we begin to feel the arthritis and rheumatism leaving, and Nature starting to complete the recovery.

We Guarantee

WE URGE everyone to try BIO-MINERAL. Do not hesitate a moment. Come to Rea & Derick's now. Get one bottle. Use it one week. If you are not 100 per cent satisfied, we will refund your money in full.

REGARDLESS of how long you have been suffering, and how many medicines you have tried before, BIO-MINERAL may be the remedy you need.

Buck Hill Falls, Pa., April 16 (AP)—

This country's professional men were criticized for not taking a greater part in public affairs at the closing session of a national conference on professional education yesterday.

Elliott Dunlap Smith, provost at the Carnegie Institute of Technology said:

"Unless we bring the professional man to a consciousness of social problems which he holds throughout his career, we have failed."

Smith also said education is failing to prepare men and women for citizenship.

"Civilization is going to die unless something is done about it," he said.

The conference was attended by more than 100 leaders from various professional fields.

says. They will seek, it adds, to abolish restrictions "on their exchange and on their reciprocal payments."

"They will pursue their studies now in course on customs unions or analogous systems such as zones of free trade," the document goes on.

The nations agree "to cooperate with other countries animated by the same intentions to reduce tariffs." The charter specifies they "shall be able to call upon the manpower available in the territory of every other contracting party," since, for example, Italy has a labor surplus and France a shortage.

STEEL ANSWER DUE NEXT WEEK

New York, April 16 (AP) — The Bethlehem Steel Corporation will give a "definite answer" next Tuesday to union demands for "substantial" wage increases, a spokesman for the United Steelworkers of America (CIO) said yesterday.

Contract negotiations, which resumed here yesterday after a recess, will start again Tuesday. Joseph P. Molony, union negotiation committee chairman, said the wage increase demand was presented at a closed meeting with company officials, but he declined to reveal the amount asked.

Molony said the union, which seeks contract improvements for 100,000 Bethlehem workers, produced at yesterday's meeting four employees who "described the difficulties of living on their present wages." The workers, whose names were not disclosed, came from plants in Lackawanna, N. Y.; and Johnstown, Steelton and Bethlehem, Pa.

A plan for social insurance for workers will be taken up at a second meeting next week, Molony said.

Frank Donner, union assistant general counsel, and C. B. Newell, union official from Bethlehem, will represent the steelworkers, he added.

BROTHERHOOD PLANS DINNER

The April meeting of the Brotherhood of St. John's Lutheran church was held in the social hall Wednesday evening with the pastor in charge of the devotions. The meeting was well attended. The pastor read Psalm 103, followed by a prayer. The topic for the evening was a stewardship theme, "It's a Way We Have in the U. L. C. A." This topic was discussed by the pastor, assisted by James Myers, Kenneth Miller and Fred King, after which there was a general discussion by those present.

The business session was in charge of the president, Fred King. The brotherhood assumes the responsibility of making plans for the annual Mother and Daughter banquet. It was decided that the banquet this year will be held at a place outside of the church. Preston Myers and Paul Hawk were appointed to find a place and select the date. The entertainment committee for the banquet consists of the Rev. Mr. James, Walter Yingling and Lewis Lippy.

In the event the community goes on Daylight Saving Time, the next meeting, May 12, will be held at 8:30 p. m. DST. The committees appointed for the May meeting are: Program, Raymond Rineman, Clair Beamer and Robert Crouse; refreshments, Alvin Grott, Walter Myers and Robert Spangler.

The program for this meeting was arranged by Kenneth Bortner and Noah Strevig. After the business session, refreshments were served by Preston Myers and Raymond Rineman. The group then enjoyed dart baseball.
